

Over 45 years of building excellence

Founded in 1969, Concept® Homes is still owned and operated by the Hinteregger family. Their sound business practices and commitment to trades, suppliers, staff and customers produce quality homes at reasonable prices. We are grateful for our community's support, and as such we sponsor local charities, build homeless housing projects and help STARS build their lottery homes. This contribution is our way of showing our appreciation for the neighbourhoods we work and live in.

Thank you to Concept® Homes' trades and suppliers

Concept® Homes would like to extend a huge thank you to the suppliers and sub-trades for their contribution to the 2015 STARS Lottery Home. This group of dedicated men and women make up the greater Concept family. They gave a tremendous amount of their time, materials and effort to make this lottery home a success.

Sincerely, Rick Hinteregger, President Concept Homes, and Dave Hinteregger, Vice-President Concept Homes
